- If your HP reaches 0, your character will fall. You can load to your Autosave this way.

Weapon Durability

- The weapon durability is at the bottom of the screen. If any reaches zero, it will have negative effects.

About Your Character

XP and LVL

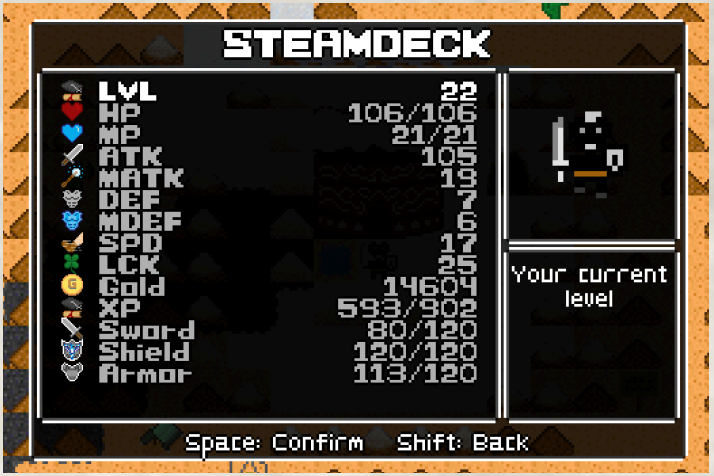
Your Level (LVL) rises as you gain Experience (EXP). Each level grants stat points to spend in stats that make your character stronger.

HP (Hit Points)

Your current life total. If HP reaches 0, you are defeated and will respawn at last autosave. HP refills to maximum on level-up.

MP (Magic Points)

Your current spell resource. Casting spells costs MP. MP refills to maximum on level-up.



Stats - Detail

- **LVL - Your hero's level**
- **ATK - Physical damage.**
- **MATK - Magic damage and healing.**
- **DEF - Physical defense.**
- **MDEF - Magic defense.**
- **SPD - Turn order, dodge chance, flee chance.**
- **LCK - Affects fortune and action success**

Gold

- **Gold is spent at shops and blacksmiths**

Leveling Up

- **On level-up, HP and MP refill to maximum, and the stat distribution screen opens.**
- **Use UP and DOWN to select the stat, and LEFT and RIGHT to distribute points.**
- **All points must be spent before you can confirm.**

Shops and Merchants.

<u>Some items you may find:</u>

- **Potion** - Heals you for 20HP
- **Hi-Potion** - Heals you for 50HP
- **Ether** - Revives you for 30MP
- **Antibiotics** - Cures Affliction (Poison DOT effect)
- **Bomb** - Hurl at enemy for instant damage, negating defenses
- **Tent** - Use on overworld to restore HP/MP
- **Repair Hammer** - Use to restore all gear to 100%
- **Repose** - Use to prevent random encounters for 100 steps
- *And more...*

The Stash Box

- The Stash Box is infinite storage.
- Battle and quest drops that won't fit in your inventory are sent to the Stash Box automatically.
- Sort the Stash Box by date deposited, by name, or by type then name.

Crafting with the Cook

- The cook consumes junk ingredients from your Stash Box to produce new items.
- Most Cook ingredients can be found from fighting different monsters!
- Most monsters have a special item drop that is unique to them

The Blacksmith

- Bring gold to restore your sword, shield, and armor.
- Gear wears down and can become dangerously less-effective.
- Visit a Blacksmith or bring a Repair Hammer with you to repair your gear.

Sword

- Sword loses 1 durability each time you land a hit.
- When sword durability reaches 0, you will output only 25% ATK

Armor

- Armor loses 1 durability each time you are hit.
- When armor durability reaches 0, you will output only 25% DEF

Defend / Shields

- Defend in battle doubles your DEF and MDEF against the next attack.
- Defend has a chance to stun the enemy, affected by your LCK.
- A shield loses 10 durability each time you Defend against a hit.
- When a shield breaks, you cannot defend until it is repaired.

Items

Items are purchased, found on the ground, given by an NPC or dropped by enemies.

Potions + Ethers + Tents

Potions restore HP, Ethers restore MP.
A Tent fully restores HP and MP. Tents can only be used on the overworld.

Repair Hammer

A Repair Hammer restores your sword, shield, and armor to full durability.

Antibiotics

Cures you of Affliction (Poison)

Thrown Items

Items like Bombs will deal damage when thrown.

Magic Spells

Fire
Deals magic damage. Fire cannot score a critical hit. Starting Spell.

Ice Blast
Deals magic damage. Ice Blast has double the normal critical hit chance. Learned.

Cure
Restores HP, scaling with your MATK. Cure can be cast in battle and on the field. Starting Spell.

Stun
Learned. A 60 + LCK percent chance to stun the enemy for 2 turns. A stunned enemy cannot act.

Scan

Return
Teleports you to your last overworld location. Cannot be cast from the overworld or cloud overworld, or special scenarios. Learned.

Repair
Restores 25% of maximum durability to your sword, shield, and armor at once. Can be cast in battle and on the field. Learned.

Repose
Temporarily reduces the rate of random encounters. Field only. Learned.

Attack Abilities

In addition to the basic Light Attack, you can learn special attack abilities from merchants:

- **Light Atk** - 0 MP. Basic attack, 1.0x damage.
- **Strong Atk** - 3 MP. A powerful strike, 1.6x damage.
- **WildStrike** - 5 HP. Heavy attack that hurts you, 2.0x damage.
- **Bash** - 3 HP. A bash that can stun, 1.5x damage.

... And maybe more

Saving Your Game

To save your quest, open the pause menu with Start and choose Save. The save screen offers:

- Slot 1
- Slot 2
- Slot 3
- Autosave

Saving

- Manual saves use slots 1, 2, or 3. The autosave uses slot 4.
- Manual saves are allowed only while standing on the overworld.
- Save metadata includes your hero's name, level, save time, and game version.

Autosave

The game writes to the autosave slot (slot 4) automatically:

- When you transition to the overworld or cloud overworld.
- When you load a saved game, or start a new game.

Early Hints and Tips

- Meet **King Corvid** in Castle Corvidia. He will send you on your first quests.
- Fight early enemies on the plains to get your first levelup.
- Hidden walls are marked by off-pattern, off-color markings.
- Learn new attack abilities and spells from merchants.
- **Fountains** heal HP/MP and negative status like Affliction
- Use a **Tent** on the overworld to fully restore HP and MP
- Do the honest thing if someone asks you, you wouldn't want to be a THIEF.
- Cast **Cure** to heal after battle to conserve your Potions.
- Use the Dash key to move at 2x speed, or to move conversation text at 2x
- Keep your gear repaired. It will visibly break when broken.
- Talk to everyone. Read all signs.
- Don't ring a bell without talking to the local Bellwitch first!
- Activate teleporters for fast travel between continents
